### **User Stories**

Story	Assignee	Story point	Time estimate (mandays)
Feature: Group management As a user of the website So that I don't see things I don't care about I would expect to be in a variety of groups and see my memberships; groups may have a direct parent, and I'd want to see the other parent groups I'm in	Evan	5	10

<p>Feature: New events with more details</p> <p>As a training officer, unit leader, or upper corps leadership</p> <p>So that I can plan new events</p> <p>I want to be able to create new events with more details like selecting Trainers, Location, OPORD upload</p>	Johnny	2	4
<p>Feature: Viewing event approval progression &amp; timeline</p> <p>As a training officer, unit leader, or upper corps leadership</p> <p>So that I can understand where an event is on the approval status</p> <p>I want to be able to see a “workflow”</p>	Alan	1	2
<p>Feature: Notification on attention needed</p> <p>As a training officer, unit leader, or upper corps leadership</p> <p>So that I can know when my attention is needed for an event</p> <p>I want to receive an email</p>	Manas	3	6
<p>Feature: Approval list</p> <p>As a training officer, unit leader, or upper corps leadership</p> <p>So that I can remark on events quickly</p> <p>I want to be able to see all events that need my attention in order, like a to-do list</p>	Alan	4	8
<p>Feature: Approve or Change training plan</p> <p>As a training officer, unit leader, or upper corps leadership</p> <p>So that the event does not count towards the total goal number for that guidance</p> <p>I want to confirm/change training plan, which are not yet executed</p>	Johnny	3	6
(Technical Debt) Move remaining tests to Rspec	Manas	2	4

## **Sprint Backlog**

### **Sprint Goal:**

To enhance the effectiveness of our collaborative platform by focusing on refining the event and approval workflows. This includes the development and integration of an approval list feature and a comprehensive training plan. Our aim is to provide a more streamlined and user-friendly experience, enabling efficient management of cadet activities. By improving these core functionalities, we strive to ensure that all activities align with leadership standards and are easily accessible to all users, thereby fostering a more cohesive and organized environment. This goal maintains the coherence of the previous sprint and aligns with the overall objective of creating a robust framework for activity planning and approval processes. It also addresses the specific needs of the users by focusing on the areas that require enhancement.

### **Stories Pulled Into The Sprint:**

All the stories that are seen in the *User Stories* section have been pulled into Sprint 2.

### **Time and Assignment:**

Time and assignment of each story that it intended to be completed during Sprint 2 is reflected in the *User Stories* table.
