Client Meeting

- Date: -2024/3/18
- Time: -19:20-19:40
- Place: Zoom Meeting

Sprint 3 Duration

- Mar. 18 - Mar. 29 (2 weeks)

Team Meeting

- Tuesday & Thursday Weekly

User Stories

Story	Assignee	Story point	Time estimate (man-days)
Feature: Import User Data into the System As the administrator of the website So that each user can be correctly set up I want to be able to bulk import the user data as a CVS file into the system	Evan	5	10

<p>Feature: Interactive Activities Calendar</p> <p>As a training officer, unit leader, or upper corps leadership So that I can see all approved activities planned by a certain unit on the calendar. And I can see activities on a certain date when I click.</p> <p>I want to be able to see an interactive monthly calendar, which is clickable for each date and can also be filtered by unit.</p>	Dev	4	8
<p>Feature: Statistical charts</p> <p>As a training officer, unit leader, or upper corps leadership So that I can view the status and completion of the CMDTS goals that a unit is supposed to achieve.</p> <p>I want to be able to see the bar graph and sheet of completion time and training type for a certain unit. (Each type of event has a unique color.)</p>	Nathan	3	6
<p>Feature: Styling of the app</p> <p>As a user of the website So that the app looks professional, neat, and in the A&M style.</p> <p>I want to be able to see a pic of Reveille on the home page, the core emblem, and a maroon and white color style on all the pages.</p>	Johnny	3	6
<p>Feature: Reason box for canceling an event</p> <p>As a training officer, unit leader, or upper corps leadership I want to be able to type in a text box when canceling an activity So that I can justify the reason for cancellation.</p>	Alan	3	6
<p>(Bug to fix) Sometimes, when the user goes back to the home page, the system logs the user out</p>	Manas	1	2
<p>(Bug to fix) Sometimes, error messages showed up when rejecting or revising an activity, but the request still went through.</p>	Alan	1	2

Sprint Backlog

Sprint Goal:

This sprint prioritizes refining previously implemented features, with a particular emphasis on enhancing tools tailored for administrators. For instance, efforts will be directed towards facilitating database updates containing user and administrator details within the corps. Additionally, the sprint aims to integrate visual components such as interactive calendars and statistical charts into the application, allowing administrators the capability to track metrics. Furthermore, commencing this sprint, we will be implementing CSS styling on the webpage, adhering to maroon and white themes across Aggie websites.

Stories Pulled Into The Sprint:

All the stories seen in the *User stories* section have been pulled into Sprint 3.

Time and Assignment:

Time and assignment of each story and the time it is intended to be completed during Sprint 3 is reflected in the *User Stories* table.
